2.0 SCOPE OF WORK

SL13-055-RW

2.1 General Requirements:

2.1.1 The Missouri Department of Transportation is requesting a bid to immediately remove to a place of safety any abandoned, unattended, wrecked, burned, or partially dismantled property, spilled cargo or other personal property that is creating a traffic hazard as directed by the Missouri Department of Transportation (MoDOT) under Missouri State Statute 304.155.

2.1.2 The determination of what shall constitute a “place of safety” in each individual incident is left to the sole discretion of MoDOT. The primary intent of this bid is for the Blanchette Bridge project on I-70 and encompasses the primary route of I-70 and other state routes that may be impacted during the construction phase of this project.

2.1.3 In the interest of public safety and in order to expedite clearance of major incidents involving heavy trucks and major traffic incidents, MoDOT will be providing a quick-clearance incentive payment when quick-clearance goals are met. Incentives are based on clearance factors that impact the safety of the traveling public and the movement of commerce in the St. Louis region on the Commission owned and operated transportation system.

- (a) The bid is NOT for towing and removal. Arrangements and Fees for towing and removal shall be coordinated, contracted and billed to the “Responsible Party” to have any and all abandoned, unattended, wrecked, burned, or partially dismantled property, spilled cargo or other personal property removed from the designated place of safety and off of MoDOT right-of-way. The removal from the right-of-way shall occur after peak travel times with the coordination and approval of MoDOT.

2.1.4 The bid shall contain a schedule of prescribed rates and requirements for safe, quick, roadway clearance. Rates shall include but not be limited to hourly clearance and standard “stand-by” charges for light (vehicles with a GVWR of 10,000 pounds or less), medium (vehicles with a GVWR of 10,001 to 26,000 pounds), and heavy duty (vehicles with a GVWR of 26,001 pounds or more) vehicle/equipment clearance, along with other standard equipment and labor charges associated with quick roadway clearance.

- (a) Non-standard equipment and operating costs shall be based on either the Dataquest (Dunn & Bradstreet) Rental Rate Blue Book or the current FEMA public assistance schedule of equipment rates with 15% overhead plus 5% profit (20% total) additive, whichever is lower.

2.2 Incentive Based Payments

2.2.1 The determination of the length of time for incentive time-based clearance payments will be established as beginning at the time that the “notice to proceed” is made by MoDOT’s authorized appointee to the contract representative on scene.

- (a) The “Notice to Proceed” shall be given once MoDOT personnel determines that the vehicle(s) creating a traffic hazard may be safely removed to the determined place of safety. The “Notice to proceed” and lane clearance times shall be documented at MoDOT’s Transportation Management Center (TMC) as established by MoDOT’s network time.
- (b) Times based on initial notification of incident: M-F 5:30 am – 7:00 pm
 - Authorized company representative shall arrive on scene within 30 minutes of dispatch call
 - Basic removal equipment shall arrive on scene within 45 minutes of dispatch call.

- (c) Times based on initial notification of incident: After Hours
 - Authorized company representative shall arrive on scene within 45 minutes of dispatch call
 - Basic removal equipment shall arrive on scene within 60 minutes of dispatch call

(d) Time based incentive payments for removal shall be based upon the criteria established below:

1. Times based upon “Notice to Proceed” time NOT time arrived on-scene

*Dry Run Mobilization (*A response run requiring no removal) (Payment \$600)

- Under 30 minutes to clear blockage from travel lanes (Incentive Payment \$3,500)
- 31 minutes to 60 minutes to clear blockage from the travel lanes (Incentive Payment \$3,000)
- 61 minutes to 90 minutes to clear blockage from the travel lanes (Incentive Payment \$2,500)
- Greater than 90 minutes of “notice to proceed” (Incentive Payment \$0.00)

2.3 Extended Clearance Times, Liquidated Damages:

2.3.1 Clearance times greater than 180 minutes shall be paid at time plus material cost with an initial \$600 cost reduction and liquidated damages of \$10/minute for every minute past 180 minutes.

- (a) If the contractor is ordered to stop the roadway clearance activity by MoDOT, MSHP or other emergency entity on scene for any reason, including but not limited to assisting in the investigation or for personnel safety, the contractor will not be penalized for the time they were delayed.
- (b) This extended time shall be documented by MoDOT’s Traffic Management Center (TMC) and recorded in MoDOT’s Advanced Traffic Management System software (ATMS) incident log. In this instance, the “net clearance time” will be the determining factor as to whether the incident clearance was successfully completed in less than 90 minutes.
- (c) Owner/operators or their appointed representative shall make themselves available for accident/clearance incident debriefs if determined necessary by MoDOT or other governmental or official local emergency response partners. The debrief dates, times and locations shall be determined by the requesting agency.
- (d) As a member of the MoDOT incident response team, the vendor is expected to work closely with MoDOT’s Motorist Assist, exercising cooperation, communication and coordination to clear incidents safely and quickly and reduce secondary crashes by providing scene safety and traffic control, debris removal and non-cargo spill mitigation.

- 3) Missouri State Workmen's Compensation policy or equivalent in accordance with state law.

Failure to Execute Contract

- a. Failure to execute the contract and file acceptable performance payment (Contract Bond) or cashier's check, bank money order or certified check within **15 days** after the contract has been mailed to the bidder shall be just cause for the cancellation of the award and the forfeiture of the proposal guaranty. Award may then be made to the next lowest responsible bidder, or the work may be re-advertised and performed under contract or otherwise, as the Commission may decide. No contract shall be considered effective until it has been executed by all parties thereto.

Notice to Proceed

- a. Within **30 days** after the execution of the contract, a "Notice to Proceed" will be issued by the Department. A purchase order will be attached to the "Notice to Proceed," which will specify the date or dates that the Contractor can start delivery, roadway or stockpile delivery and will also include the completion dates. These dates will be in accordance with the dates shown in the proposal.

Temporary Suspension of Work

- a. The **District Engineer** shall have authority to suspend work wholly or in part for such period or periods as may be deemed necessary when weather or other conditions are such that in the opinion of the engineer, the work may be done at a later time with advantage to the Department or for failure on the part of the Contractor to comply with any of the provisions of the Contract.
- b. If the Department suspends the work for its own advantages and not because of the Contractor's failure to comply with the Contract, the Contractor will be allowed an equal number of calendar days after the completion date for the completion of the work. The Department may at its discretion give the Contractor an extension of time for completing the work where the Contractor incurs delays for causes beyond his control.
- c. Normal rainfall is not considered a cause qualifying for an extension of time. Claim for extension of time for all causes must be submitted by the Contractor in writing within **30 Days** after the claimed cause for the delay has ceased to exist.

Cancellation of Contract

- a. If the Contractor/supplier fails to carry out the performance of the work with sufficient workmen and equipment to insure the completion of the delivery within the time specified or becomes insolvent or is adjudicated a bankrupt or commits any act of bankruptcy or insolvency or allows any final judgment to stand against him for a period of ten (10) days, the Missouri Department of Transportation may give notice in writing by registered mail to the Contractor/supplier and the surety of such delay, neglect or default.
- b. If, within ten (10) days after such notice the Contractor/supplier does not proceed to remedy to the satisfaction of the Department's representatives the faults specified in said notice, or the surety does not proceed to take over the deliveries, the Department shall have full power and authority, without impairing the obligation of the Contractor/supplier under the contract or the surety under the bond, to take over the completion of the work and arrange for the shipment of any materials necessary to complete the work and the Contractor/supplier and the surety will be responsible for any additional costs incurred by the Department in obtaining the completion of the deliveries.
